

We will soon be using OWNA for our Parent Communication

OWNA lets you get closer than ever before, with daily updates, private messaging and instant notifications directly from your phone.

What you can do in OWNA

Real-time updates

See what your child gets up to, and get to know their daily routines around sleep, food, toileting and more.

Communicate with educators

Interact with educators via the secure social network, with comments, photos & videos.

Instant Notifications

Get notified about the things you need to know, such as learning experiences, incidents, private notes and more.

Track learning outcomes

Know what your child learns about, see what milestones they're hitting, and receive information on lessons so your child can continue learning at home.

Keep up-to-date

With all events & activities at your child's centre.

Manage Bookings

Book casual days, sign permissions slips and manage your billing information (if billed through OWNA).

Your login credentials will be emailed to you when we go live with the OWNA app.
